

Compliance Affidavit

Page 1 of 1

APEL Education Consultancy LLC allows subscribers *with print disabilities* to legally access copyrighted books through online *Chafee Depositories*. These depositories operate as authorized entities under 17 U.S.C. § 121 of US copyright law which states:

"... it is not an infringement of copyright for an authorized entity* to reproduce or to distribute copies of a previously published, non-dramatic literary work if such copies are reproduced or distributed in specialized formats exclusively for use by blind or other ***persons with disabilities."**

*** The depositories APEL uses meet the criteria of an "authorized entity" since they are non-profit organizations whose sole purpose is to deliver reading material to print disabled persons.**

**** "Specialized formats" are Braille, audio, or digital text that are exclusively intended for use by blind or other persons with disabilities.**

***** "persons with disabilities" include individuals with print disabilities who are unable to effectively use written material in a printed format because of a visual or physical impairment or a learning disability.**

Every volume we bring your students bears a copyright notice identifying the copyright owner, the date of the original publication and a statement declaring that further reproduction or distribution of the book is a copyright infringement.

I have read and understand the above information. By signing this document I agree to abide by all rules and regulations of the Chafee Amendment.

Only individuals with print disabilities can be given access to copyrighted materials. Proof of Disability is a legal requirement that must be made by a qualified expert who attests that the individual has a visual, perceptual, or other disability that limits his/her use of standard print. Proof of Disability may come from professionals in education, medicine, psychology or related fields of disabilities services.

As the qualifying professional at _____
I attest under penalty of perjury, that the students I subscribe to APEL's *System and Method for Educating Learning-Disabled Individuals patent # 6,075,968* have visual, perceptual or other physical disabilities that limit their ability to effectively use standard print, and that I and/or other professionals on the IEP team have the qualifications to make this certification.
